# ***THE GENTLE WAY***

Are you looking for a gentle alternative to cremation or burial? We understand that this is a deeply personal decision that requires careful consideration. That's why we offer a unique and compassionate option that honours your loved one's memory in a special way, without leaving the environmental impact.

using Alkaline Hydrolysis, a revolutionary, environmentally friendly alternative to traditional cremation and burial. As Australia's leading & only provider of Water Cremation with a filtration system, we combine cutting-edge technology with compassionate care, delivering a service that is both ethical and sustainable, that you may well know as water cremation.

What if you didn't need to purchase a coffin or casket? In fact what if you could rent one?

Other than the obvious difference of utilising water (a gentler method) than using fire, The Gentle Way method, doesn't require you to purchase a coffin or casket saving you thousands.

## ***BUT DO I STILL GET ASHES?***

YES! you absolutely do, and even more than you would from a fire cremation. However, we call them "remains" as ashes simulate the use of fire. The consistency is nearly identical and you can still place them in urns, scattering tubes, turtle water urns and more. We provide The Gentle Way, because families deserve to have every option.

We've seen a percentage right across Australia looking for an alternative to Burial & Cremation, and we now have one. Partnering with The Gentle Way Brisbane, we are the only Funeral Home In Kingaroy that can offer this service.

Is it a gentle option? **YES**

Is it a cheaper option? **YES**
